4. According to information contained in Headquarters files, Dr. Edward Edgar KLAUS (ake: Edgar GLAUS) was in contact in Stockholm with KLEIST. The contact was initiated by KLEIST after he learned that KLAUS had contacts within the Soviet Embassy in Stockholm. This contact was apparently established by KLEIST on befilf of KLEIST's activities as an "ambassador of peace". There is no available information at Headquarters concerning the circumstances of KLAUS's death. Therefore, we are unable to judge the significance or veracity of KLEIST's remarks that KLAUS's marder must have been engineered by the Soviets.
